

# Way to separate and dispose of waste and recyclables in Mizuho Town

Waste Collection Office, Environment Division, Resident Department, Mizuho Town Phone 042 - 557 - 7706

## ◆ Waste and recyclables collection places

- For a single family home, please put out waste within the premise facing the road of each house. Make sure it does not go out to the sidewalk or the road and always put it in the same place. For apartments, please put out at the apartment house specified dumping place.

## ◆ Waste and recyclables collection time

- Please **put out waste by 8 am** on the collection day. We will not collect wastes that have been put out late. Please put them out on the next collection day.

## ◆ Collection Schedule

- The collection schedule varies according to the address. Please confirm with "Waste and Recyclables Collection Calendar" of your district. There is no foreign language version of the Waste and Recyclables Collection Calendar. Please confirm the collection schedule with the guide leaflet.

## ◆ Marks of waste and recyclables collecting calendar

Combustible waste	Container packaging plastic and incombustible waste	Container packaging plastic and cloth and PET plastic bottles	Newspapers, magazines, cardboard, paper packs, miscellaneous papers	Bottles, cans, glasses, metals and harmful waste	Special collection date and waste item combination ※ Items are listed in the center.

- Caution:** The collection schedule for year-end and new year is different from the usual schedule. Combination of collection items may also be different from the usual schedule.

## ◆ Identification mark

- The country has required these marks to be displayed. They are marked on the main body or label of each product.

	Container packaging plastic		PET plastic bottle
	Aluminum can		Steel can
	Paper container packaging		

Not all items marked with “紙” are miscellaneous papers.

## ◆ Please put out combustible waste and incombustible waste with Mizuho Town designated collecting bags.

- The designated collection bags are sold at supermarkets and convenience stores in Mizuho Town. The collection bag fee covers the disposal expenses. Therefore, waste disposal using designated collection bags of other municipalities will not be accepted.

Mini bag	(5 litre equivalent)	1 set	70 yen
Small bag	(equivalent to 10 litres)	1 set	150 yen
Medium bag	(equivalent to 20 litres)	1 set	300 yen
Large bag	(equivalent to 40 litres)	1 set	600 yen
* One set consists of 10 bags.			

Designated combustible waste bag: Cream color  
Designated incombustible waste bag: Light blue color

## ◆ Business establishments

- In principle, the wastes from the business establishments are to be processed themselves. However, if the amount of waste is "80 liters or less and 12 kg or less" and if it is limited to waste and recyclables similar to ordinary households (bulky waste, industry waste are not acceptable), we will collect them individually. ※ Preliminary contact is required.

## ◆ Notes

- We collect even on bad weather. However, it may be canceled due to typhoon, heavy snow, etc.** If there is a possibility that waste and recyclables will be swept by rain or blown by strong wind, please put them out on the next collection day even if collection is normally performed.
- If waste is improperly put out or improperly sorted, it will not be collected. Please put them out in the correct way on the next collection day.
- If waste is damaged by animals, please clean it up yourself

## ◆ Items that cannot be collected by town (typical examples)

■ The following items cannot be collected: Please consult a retail or specialty store.
